Table of Contents

Part 5: Metals and Minerals

Ergun KAPTAN	Ancient Stone Materials Used for Ore Enrichment in Anatolia	173
Evren YAZGAN	Cassiterite (Tin) Mineralization Related with Erciyes Volcanic Activities and the Mode of Formation of the Hematite-Cassiterite-Yazganite-Tridymite Paragenesis and its Implication for Bronze Alloys	183
Joseph W. LEHNER, Evren YAZGAN, Ernst PERNICKA Fikri KULAKOĞLU	Continuity of Tin Bronze Consumption during the Late 3 rd Millennium BC at Kültepe	195
Levent ERCANLI	The Archaeometallurgical Study on Metal Artifacts of Kültepe in Assyrian Trade Colony Period	219

Part 6: Kültepe after the Bronze Age

Gojko BARIJAMOVIC	Kültepe after Kaneš	233
Mehmet UĞURYOL Draĥşan UĞURYOL	Recent Practices for the Conservation of Adobe Ruins of Kültepe	243

Abstract

This book is the first of a new sub-series of the Subartu project dedicated to the site of Kültepe, ancient Kaneš, in central Anatolia. It is the report of a conference which took place at Kültepe in September 2013. Contributions written by respected specialists in the field focus on Kültepe and its environment, mainly during the Bronze Age, and on its Assyrian settlement located in the lower town. The volume brings about a reflection on archaeological and textual materials, and provides an interdisciplinary summary of the state of research. It is divided into six sections dedicated to the following topics: archaeology, chronology and population of Kültepe; archives unearthed in the houses belonging to Assyrians; Old Assyrian writing and literacy; Anatolian settlements and daily life; metals and minerals; Kültepe after the Middle Bronze Age.

Fikri Kulakoğlu, Professor of archaeology at Ankara University, is the director of Kültepe excavations since 2006.

Cécile Michel, Director of Research at the National Center for Scientific Research (France), belongs, since the 90s, to the international team in charge of the publication of Kültepe tablets.
